MODEL MOVIES FIGHT
WILL BE CONTINUED

Renew Efforts to Interest D. C.
Children in Appropriate
Films.

As an aftermath of the campaign for cleaner motion pictures, conducted by the Federation of Women's Clubs of the District and allied organizations, a meeting of the local motion picture exhibitors who co-operated in the movement and the women who carried on the campaign will be held tomorrow morning in the parlors of the Ebbitt House. The object is to arrange some future plan for the showing in this city of pictures of a type especially interesting to children.

The last of the "Model Movies" matinees for children were held at six of the city's leading picture theaters Saturday and were poorly attended. Despite the seeming failure of the mothers to work up sufficient interest in the local campaign, some theater managers have expressed the opinion that children's topics will pay here.

Movement Beneficial.
The women, though disappointed, are far from disheartened and express the opinion that the "cleaner" picture campaign being carried on by the federation in nearly every city throughout the country have been a success in bringing the producers to the realization that the filming of children's subjects is necessary, while the production of lewd and obscene pictures will call down Federal censorship and cause a feeling of popular resentment.

"The result of the movement is easily seen," said Mrs. J. J. Losher, chairman of the local committee in charge of the movement. "Recent press reports tell of the banding of twenty-five New York producers to avoid the filming of lewd and obscene pictures. The Board of Review, an organization which assists the producers in censoring and reviewing their products, has announced the formation of a junior branch and every day brings news of the contemplated picturization of some story especially appealing to children."

CONSIDER ENGINE PURCHASE.
The purchase of an automobile fire engine will be the principal subject of discussion at a meeting of the citizens and taxpayers of Silver Spring, Sligo, Woodside, Linden, and a number of other towns in that section of Montgomery county, Md., Wednesday evening in the Woodside schoolhouse. The meeting is under the auspices of the Silver Spring Volunteer Fire Company.

ONE-LEGGED MEN TO
HOLD CONVENTION

Those With Leg and a Half to
Be Eligible, But Ones With
More Are Barred.

No one with more than a leg and a half will be admitted to the organization, said Gus Gumpert at the New Ebbitt today, in talking over the plans of the one-legged convention to be held here soon.

"There'll be a lot here with no legs at all, and some with everything up to a leg and a half," he continued, "but there we bar them."

Several Letters a Day.
Mr. Gumpert, who is to be host to the more than fifty artificial legged men, has been receiving several letters a day asking for information about the convention. The original plan was to have the convention for artificial limb salesmen only, but the interest shown by cork stumpers all over the country has become so great, said Mr. Gumpert, that the meetings have been thrown open to all wearers of the man-made limbs. An organization will be completed some time during the convention, which is to last a week. National officers will be elected, and attempts made to perpetuate the organization by means of an annual convention.

Women Are Eligible.
Even women will be eligible for office in the new organization. In fact, several letters have been received from women in various parts of the country, expressing interest in the movement and asking permission to attend. It has not yet been determined how these latter applicants will be made to prove their eligibility to membership in the society.
